Course Overview

Are you interested in an accredited online course that will help you facilitate social learning? Then this course is for you!! The course aims to build capacity of current and future practitioners of environmental learning processes such as training and facilitation, stakeholder engagement and information sharing by drawing on up-to-date learning theory, methods and processes.

Four Modules (all include content & an assignment)

Module 1 (October 2020): Educational Contextual Profiling

Module 2 (mid-November 2020): Stakeholder Engagement

Module 3 (February 2021): Introduction & Design of Environmental Learning Processes

Module 4 (mid-March 2021): Implementing & Evaluating Environmental Learning Processes

Application Process & Registration Fee

Registration fee for the course is R7000,00. Some funding support is available to participants in need.
